LSSW is committed to supporting schools to develop a sustainable pipeline of talented, motivated leaders who are ready to meet the challenges and opportunities of tomorrow's education system.

Programme Outline

This NPQLTD Programme typically takes up to 15 months (12 months delivery and three months for assessment) to complete, during which time participants will follow the course cycle below:

- Evidence-based online content to build and refresh knowledge, as well as exemplify what this looks like for your role and level of leadership.
- A formative assessment task to support your learning.
- A face-to-face seminar with a group of peers, facilitated by a serving school leader or Teach First Development Lead - you will analyse and reflect on the task and hear further examples of good practice.
- The opportunity to record reflections and consolidate learning.

This cycle repeats throughout the programme, with implementation a consideration in every course. Towards the end of the programme, you will also take a course focused specifically on effective implementation. This provides an opportunity to complete a significant but manageable change project as part of your role. There will be ongoing support through a seminar group and discussion forum.

This programme will help you to:

- develop as a specialist in areas related to your role, including designing and delivering continual professional development (CPD) to others across the school.
- work with serving school leaders and subject matter experts to turn new learning into changes in your own and others' practice.
- access a blended learning programme that is full of practical and tangible examples, flexible and tailored to your needs and areas of development and focus.

Assessment

Assessment of your NPQ takes place within three months of you completing your NPQLTD. Detailed dates will be shared with participants before the start of the programme.

The assessment process for all NPQs has been refreshed to reduce the workload burden on teachers whilst providing an opportunity to apply their knowledge. To pass the programme you will need to engage with at least 90% of the course and pass one summative assessment.

The assessment process for the Team Leader level 3 Apprenticeship will include completion of all Skills Training UK's requirements, reviews, and end point assessment*.

***End Point Assessment:**

The Apprenticeship programme assessment will be carried out by an End Point Assessment Organisation (EPAO) and is based around a presentation with Q&A and a professional discussion underpinned by a portfolio of evidence, which showcases your knowledge, skills and behaviours and is gathered and evidenced in an E-Portfolio.
